Subject: Santa Rita Hills Community Services District

Mr Hood,
My wife and I own two parcels in the District. We have appreciated the work that the CSD has done to build the road system. Unfortunately there are no longer five voters in the district so the CSD cannot continue.

A Bridge and Highway District would allow us to continue the work of the CSD and finally get the road system built. It would allow all parcel owners to vote and serve on the board.

We have been working as quickly as possible to get all the necessary application materials to form a Bridge and Highway District. However, we need some more time to finish the application.

We strongly support Option 3 - to continue consideration of the resolution dissolving the CSD until a future meeting. That will allow us the time to allow reorganization to a Bridge and Highway District.

Thank you,
Angelo Salvucci
