Hi Natasha,

I know the final version has already been circulated for review and is past the stage for incorporating additional edits. That said, our team did a careful read-through and wanted to share a few suggested clarifications and edits. Please find our suggested edits attached.

We don't expect these changes to be implemented at this stage, but we wanted to pass them along in case they are helpful for future updates

Thank you again to you and your team for all the work that went into this report.

All the best,  
Sydney
