Altho Richard's Ranch seems like a good idea, I think the project needs to wait a bit before proceeding.

Does Orcutt really want to be annexed or become part of Santa Maria? Do we really want state water(very expensive, and we do have aquafirs to support what we have); and do we really need more housing, especially since the "low income" housing is out of many people's reach financially, and illegal immigrants are being deported, lessening the demand.

Altho we can't stop "progress," more thoughtful consideration needs to be implemented before starting this project.

Give it a couple more years.....

It's a great project, just not now.

Thank you,
Tara Hoffmann
