Dear LAFCO members,

This is a request to proceed with the scheduled review of the Isla Vista Community Services District.

There is no reason to delay the review.

I have been an Isla Vista resident since 1967, my husband since 1979. We were dismayed at the formation of the CSD. The promise was that a review would be made at the scheduled time. That time is now approaching, so please go ahead with the review.

Thank you for the work you do,
