RE:LAFCO June 2, 2016 - BUSINESS ITEM #3: Santa Ynez Community Service District  
To Include Los Olivos in The District's Sphere Of Influence

Dear LAFCO COMMISSION:

I am a property owner in the Special Problem Area of Los Olivos.

I ask you please to approve the application of the Santa Ynez Community Service Districts for Sphere of Influence change (your LAFCO File 16-01) to include Los Olivos. And to provide to Staff to proceed with processing this application.

I am among a majority of Los Olivos residents who do NOT wish to wait for nor form a Los Olivos CSD - thus leaving us without the means to move forward to do something about our septic system problems, which are now regulated by the Santa Barbara County LAMP.

I am concerned about the cost of meeting the new LAMP regulations. I have heard from a septic systems contractor that the costs could exceed \$40 thousand, plus the additional cost of monitoring it's operation.

The SYCSD has the experience and is willing to step in and provide the Los Olivos community with wastewater collection and disposal. We want reliable wastewater service from a reliable operator already in the business. We are Not willing to wait for nor gamble on the creation of a new CSD in Los Olivos.

The idea has been put forth by the so called " LOS OLIVOS STEERING COMMITTEE" that "Los Olivos wishes to maintain a separate identity and is looking at forming a CSD to maintain local control" is the "wish" of one citizen and a few people who follow.

The COMMUNITY of Los Olivos is a much larger population of people who wish to get moving forward with a realistic plan to deal with our wastewater, and save our money for sewer service rather than waste it on the LAMP regulations.

Thank You,

RE:LAFCO June 2, 2016 - BUSINESS ITEM #3: Santa Ynez Community Service District  
To Include Los Olivos in The District's Sphere Of Influence

Dear LAFCO COMMISSION:

I am a property owner in the Special Problem Area of Los Olivos.

I ask you please to approve the application of the Santa Ynez Community Service Districts for Sphere of Influence change (your LAFCO File 16-01) to include Los Olivos. And to provide to Staff to proceed with processing this application.

I am among a majority of Los Olivos residents who do NOT wish to wait for nor form a Los Olivos CSD - thus leaving us without the means to move forward to do something about our septic system problems, which are now regulated by the Santa Barbara County LAMP.

I am concerned about the cost of meeting the new LAMP regulations. I have heard from a septic systems contractor that the costs could exceed \$40 thousand, plus the additional cost of monitoring it's operation.

The SYCSD has the experience and is willing to step in and provide the Los Olivos community with wastewater collection and disposal. We want reliable wastewater service from a reliable operator already in the business. We are Not willing to wait for nor gamble on the creation of a new CSD in Los Olivos.

The idea has been put forth by the so called " LOS OLIVOS STEERING COMMITTEE" that "Los Olivos wishes to maintain a separate identity and is looking at forming a CSD to maintain local control" is the "wish" of one citizen and a few people who follow.

The COMMUNITY of Los Olivos is a much larger population of people who wish to get moving forward with a realistic plan to deal with our wastewater, and save our money for sewer service rather than waste it on the LAMP regulations.

Thank You,

2671 San Marco Ave BX 56

We want reliable wastewater service from a reliable operator already in the business. We are Not willing to wait for nor gamble on the creation of a new CSD in Los Olivos.

The idea has been put forth by the so called " LOS OLIVOS STEERING COMMITTEE" that "Los Olivos wishes to maintain a separate identity and is looking at forming a CSD to maintain local control" is the "wish" of one citizen and a few people who follow.

The COMMUNITY of Los Olivos is a much larger population of people who wish to get moving forward with a realistic plan to deal with our wastewater, and save our money for sewer service rather than waste it on the LAMP regulations.

Thank You,

RE:LAFCO June 2, 2016 - BUSINESS ITEM #3: Santa Ynez Community Service District  
To Include Los Olivos in The District's Sphere Of Influence

Dear LAFCO COMMISSION:

I am a property owner in the Special Problem Area of Los Olivos.

I ask you please to approve the application of the Santa Ynez Community Service Districts for Sphere of Influence change (your LAFCO File 16-01) to include Los Olivos. And to provide to Staff to proceed with processing this application.

I am among a majority of Los Olivos residents who do NOT wish to wait for nor form a Los Olivos CSD - thus leaving us without the means to move forward to do something about our septic system problems, which are now regulated by the Santa Barbara County LAMP.

I am concerned about the cost of meeting the new LAMP regulations. I have heard from a septic systems contractor that the costs could exceed \$40 thousand, plus the additional cost of monitoring it's operation.

The SYCSD has the experience and is willing to step in and provide the Los Olivos community with wastewater collection and disposal. We want reliable wastewater service from a reliable operator already in the business. We are Not willing to wait for nor gamble on the creation of a new CSD in Los Olivos.

The idea has been put forth by the so called " LOS OLIVOS STEERING COMMITTEE" that "Los Olivos wishes to maintain a separate identity and is looking at forming a CSD to maintain local control" is the "wish" of one citizen and a few people who follow.

The COMMUNITY of Los Olivos is a much larger population of people who wish to get moving forward with a realistic plan to deal with our wastewater, and save our money for sewer service rather than waste it on the LAMP regulations.

**Subject:** ??SPHERE OF INFLUENCE SYCSD-CHANGE

New information has come up to cause a pause in our thinking.  
All reports are not going to be complete until September, including costs to construct, maintain etc.  
New information to us is SB County may put this in for us, like they did Orcutt. We think we should hold off until all reports are in and we can explore the possibility of SB County participating.

Thank you,  
Jeane B Dewett, Janeen Dewett Chester, Bruce Dewett and Cathy Dewett Chester
