Subject:	Richard's Ranch development
Message:	<p>I am opposed to Richard's Ranch development. I am an Orcutt resident and can see how this will affect our immediate community as well as our entire county negatively. An additional 750 residential units will more than strain our already stressed infrastructure. Schools, water, electricity, traffic, police and fire, to name a few. Not to mention the effect the development will have on the environment and all that lives and breathes there, including plant life and animals. As far as any industrial, we have no need for anymore. The entire state is having trouble keeping these buildings occupied. There</p>

is no need for more industrial of any kind. The costs of such a development in the next four years will do nothing but increase with the threat of the costs of goods. This will delay home sales and affect all home sales in the area negatively.
