Subject: Orcutt Resident feedback re: annexation project
Date: Monday, May 5, 2025 6:56:31 AM

Good morning! Please include my comments in this process, as I am unable to attend meetings to speak in person, please. Please confirm and thank you!

Our family and neighbors are very concerned about Annexation and why and how it will affect our community. It will take away our/Orcutt's voice on how this site is developed.

If annexed, funds will go to the City not to our areas surrounding this development, including our schools which is where the children will be learning/ living.

We want a project at this site with Orcutt identity.

The Orcutt Community Plan is viable, regardless of date created. Orcutt Community Plan will combine residential with commercial AND green space ... it will enhance Orcutt's identity.

We would like to see Orcutt pursue some form of self-government in future!

Annexation will definitely take away our/Orcutt's voice on how this site is developed.

If annexed, the funds will go to the City and not to our areas directly surrounding this development.

We want a project at this site with Orcutt Identity, PLEASE !!

Elaina
